EXPERIENCE

QUALITY ASSURANCE ENGINEER, AIRFIND | SEPTEMBER 2021 – SEPTEMBER 2022

- Created detailed, comprehensive, and well-structured test cases and test plans.
- Collaborated with offshore development team to ensure a quality, timely release each sprint.
- Using Postman, developed automated test cases for each of our APIs.
- Tested changes on development, staging, and production environments to ensure they are correctly implemented, and that no adverse effects were introduced into the system.
- Actively participated in daily stand-up meetings, project planning, sprint planning, grooming sessions and retrospectives.
- Worked with NoSQL and SQL databases such as MongoDB and Google BigQuery.

QUALITY ASSURANCE ENGINEER, IDEAGEN | SEPTEMBER 2022 - PRESENT

- Analyzed the existing test infrastructure
- Fixed build for broken tests and issues causing tests to fail
- Developed document detailing test status and coverage as well as specifics for each test
- Worked to list which areas of the product needed additional testing to be developed

EDUCATION

B.S COMPUTER SCIENCE: INFORMATION ASSURANCE AND CYBERSECURITY, FLORIDA POLYTECHNIC UNIVERSITY | MAY 2021

Completed course work such as Software Engineering, Database, Object Oriented Programming, and Data Structures.

CERTIFICATES

AGILE DEVLEOPMENT WITH JIRA, ATLASSIAN | APRIL 2021

For this certificate, I had to master best agile practices as well as specific topics relating to Jira. I displayed my proficiency in JQL, Kanban, and Scrum.

POSTMAN: THE COMPLETE GUIDE, UDEMY | JULY 2022

For this certificate, I mastered concepts relating to REST API testing with Postman for manual and automated testing.

SKILLS

Knowledgeable in JavaScript, HTML, CSS, Python, C/C#/C++, and Java.

- | | | |
|---------------------|-------------------------|---------------------|
| • Quality Assurance | • Agile Methodology | • Jira |
| • Kibana | • API Testing | • Jenkins |
| • Postman | • Front-end Development | • Automated Testing |
| • BigQuery | • Google Cloud Platform | • React |

PROJECTS

PERSONAL WEBSITE, JASONMOROFSKY.COM | SUMMER 2021

My interactive portfolio. Contains additional information not in this resume. Coded with HTML, CSS, and JavaScript, using React with JSX. Hosted through Google Cloud services. Uses GitHub's API to provide statistics, updated daily.

MEDICARE WITH MEGHAN MOROFSKY, MEGHANEXPLAINSMEDICARE.COM | AUGUST 2021

Created a Medicare information web application for a client using HTML, CSS, and JavaScript alongside React with JSX. I had a meeting with the client, established user requirements, and created a product based on those requirements.
